

2022
BENEFIT ENROLLMENT GUIDE

# **ENROLL**

Our health insurance offering aims at providing multiple benefit options for you and your family to choose from. Each plan has different levels of benefits designed to give you different coverage options corresponding to the respective premium. Please pay attention to each benefit, what it offers and it's limitations.

# WHEN TO ENROLL

You can enroll during your employer's open enrollment period, during your new hire window or during a qualifying event.

If you are a new hire **YOU MUST** complete the enrollment process within 30 days from your hire date.

You can only make changes to your enrollment if you experience a qualifying event. A qualifying event is defined as a change in your status due to one of the following: marriage, divorce, birth or adoption, termination, loss of dependent and loss of prior coverage.

# **MEDICAL BENEFITS**

#### **Understanding Your Benefits.**

To remain compliant under the Healthcare Reform Employer Mandate we offer 3 versions of a Minimum Essential Coverage Plan and a Limited Day Medical Plan.

Our Limited Day Medical Plan is designed to give you the best possible benefits for the premium. Additionally, a high dollar deductible Minimum Value Plan is being offered to further comply with the Affordable Care Act.

Please refer to the schedule of benefits in the following pages to better understand each benefit.

**COVID -19 And Your Benefits.** 

The COVID-19 pandemic has created a unique set of challenges in many aspects of life. As a result of the Families First Coronavirus Response Act (FFCRA) and the Coronavirus Aid, Relief and Economic Security Act (CARES Act), when enrolled in one of our health plans you and your covered dependents can be tested for COVID-19 free of charge by an attending health care provider as long as it is deemed medically necessary. Medically necessary is defined A) The individual has signs or symptoms -or- B) The individual has had known or suspected recent exposure to the virus. Your health care provider should ask you why you are getting tested. An example of a situation that is not medically necessary is getting tested before a vacation because the destination requires a test. In addition to COVID-19 testing, you and your covered dependents can receive a vaccination free of charge.

#### **Telemedicine**

Telemedicine has been growing in popularity the past decade. With the recent COVID-19 pandemic it is now more valuable than ever. All plans except the MEC Basic come with Telemedicine through Ally Health - https://www.allyhealth.net/

You have 24/7 direct access to family doctors and Pediatricians for consults, treatment and prescriptions for a wide range of common health conditions.

# FURTHER UNDERSTANDING YOUR BENEFITS

WE MAKE EVERY EFFORT TO EDUCATE YOU ON YOUR HEALTH PLAN OPTIONS SO YOU CAN MAKE AN INFORMED DECISION.

#### MEC, MEC PLUS, AND MEC ENHANCED

Minimum Essential Coverage (MEC) is the basic level of care required to be offered under the Employer Mandate clause of the Affordable Care Act. The basic MEC covers preventative services only and meets the requirement for The Individual Mandate should you live in a state that enforces this law. The MEC Plus and MEC Enhanced cover the same services as the Basic MEC - however further benefits have been added to these two plans to provide more value. Some of these services include doctor visits, urgent care, imaging / labs, and a pharmacy program designed to cover generics and maintenance medication

Please look at the schedule of benefits to understand each respective benefit. Please note, none of the MEC plans cover any type of hospital benefit.

#### LIMITED DAY MEDICAL PLAN

This plan is unique in the way the benefits are structured and provide great value for your money. This is the fourth year this benefit is being offered and we continue to receive positive feedback.

This plan has a look and feel of a major medical policy; however the day limits are capped. You will notice in the schedule of benefits each respective line item has a cap (Example: Primary Care Visits, In Patient Hospital, Out Patient Hospital etc).

As long as it is a covered service and you are within the day limits then you are covered. As an example, you have 7 days of In Patient Hospital benefits a year - every covered service within those 7 days are covered. Anything on the 8th day and beyond is not covered. Another great benefit is you have no upfront deductible to meet. You experience first dollar coverage after your copay.

# FURTHER UNDERSTANDING YOUR BENEFITS

WE MAKE EVERY EFFORT TO EDUCATE YOU ON YOUR HEALTH PLAN OPTIONS SO YOU CAN MAKE AN INFORMED DECISION.

#### MEC, MEC PLUS, AND MEC ENHANCED

All three of these plans come with a list of preventative services mandated under the Affordable Care Act. The preventative services are screenings and check-ups at no cost to you.

If you are seeing your provider for an approved preventative care visit please mention this to the provider's office. For all other services, this plan uses the PHCS network.

PHCS is a national PPO network. Please ensure your provider is listed in the PHCS network. If you have any questions centered around insurance acceptance, please directly ask your medical provider if they accept the PHCS Network. You can also search for a provider on the PHCS website or call Alternative Risk Management for help.

#### LIMITED DAY MEDICAL PLAN

Truly understanding the value of this plan will ensure you can make an informed decision as to whether or not it fits your needs. One major unique aspect is this plan has first dollar coverage. Most group health plans have a deductible that must be met before you realize any benefits. The LDM has no deductible and benefits start paying immediately – after your co-pay. Due to the enhanced benefit levels and first dollar coverage there are day limits that apply. Please be aware of the day limits before enrolling. Another unique function in this plan is the utilization of the Provider and Hospital networks. For your day to day services – Primary Care, Specialist and Diagnostic Services – the plan uses the PHCS network.

For hospital or facility benefits there is no network. The plan utilizes a method known as Reference Based Pricing –or- Value Based Pricing to reimburse the hospital. This is important to you as you do not need to find an "in-network" hospital.

# PROVIDER NETWORKS & CONTACT INFORMATION

#### **Understanding Your Provider Networks and Who to Contact**

#### Medical Network - https://www.multiplan.us/members

All our medical plans use the PHCS Network through Multiplan. This is considered your in-network benefit for physician and facility (I.E. Doctors and Hospitals). The link above will help you find an in-network provider.

\*\* The MEC Plus comes with the Value Point Program. This is designed to give you discounts on certain services that do not have an insurance benefit.

#### Pharmacy - RX Coverage - www.OptumRx.com

Optum RX manages the Pharmacy Benefit Management (PBM) component of your health plan. Please refer to the Optum handouts in this guide for more information. The MEC Plus, MEC Enhanced and Limited Day Medical drug formulary is designed to cover all generics at a low cost to you. Please note - these plans do not cover specialty medications.

#### Alternative Risk Management - http://www.altrisk.com/

ARM provides the function of day to day support. ARM can help with missing ID cards, change of address and other customer service functions.

847.394.1700

\*\* This grid is designed to give you a high level side by side comparison of your 4 core health plans. ALL SERVICES BELOW ARE SHOWN AS IN-NETWORK BENEFITS. For a detailed listing of each plan please refer to The Schedule of Benefits in this enrollment guide.

Employee + Family	\$231.25	\$925.00

## The Basics of Your Health Plan | What to Know About Networks and Claims

#### **MEDICAL NETWORK**

Most health plans regulate what provider you have access to. This is called a network. Networks exist to control cost with the insurance carrier. For services that require an in-network provider it is crucial you find and see an in-network provider – or the service may not be covered by the insurance. We use one of the largest wrap networks in the country for our health plan, The PHCS network through Multiplan.

#### **DOCUMENTS & DETAILS**

At times, insurance and the terms of healthcare details are hard to understand. You have access to the benefit handbook that provides a thorough overview. Further, you have access to the full document known as the Summary Plan Description (SPD). The SPD is the detailed guide to the benefits and explains how the healthcare plan works.

## **CLAIMS & CLAIMS PROCESSING**

As soon as you see a provider and/or receive a service (doctor office or hospital) a claim is then electronically sent to the insurance carrier for payment. Usually, the provider will collect what is known as the member responsibility at the time of service (this is your co-pay, if applicable). After the claim is submitted the provider then waits for the claim to be approved so that payment can be sent from the insurance carrier.

**Example:** You see your primary care physician due to an illness. You pay the doctor's office a \$30 co-pay. The doctor submits the claim to the insurance carrier as a "standard office visit". The claim is approved, and the insurance carrier pays the doctor another \$170.

Claim processing dynamics can be complex. As an example, some doctors are part of a larger group that bill separately. We often see this with hospital systems. Sometimes it's difficult to grasp all the different entities billing insurance for what we think is one service. We strongly recommend you communicate clearly with your medical professional as to what service you are being seen for, in turn what they are billing for. For larger services (surgeries and other large procedures) we recommend you specifically ask the provider if the service is covered. We are here to help with claims. If you have any questions, please don't hesitate to reach out.

For certain procedures a **prior authorization** is required. This means the doctor, facility or hospital must obtain approval from the insurance company prior to the actual service. The healthcare provider is responsible for sending the prior authorization into the insurance carrier for approval, however we strongly recommend you ask your medical provider if a prior authorization is required. If a service requires a prior authorization and one is not obtained, the service can be denied. Prior authorizations are handled through Alternative Risk Management (ARM). This is the Third Party Administrator (TPA) servicing your health plan.

ARM can be reached at: 800.394.1700

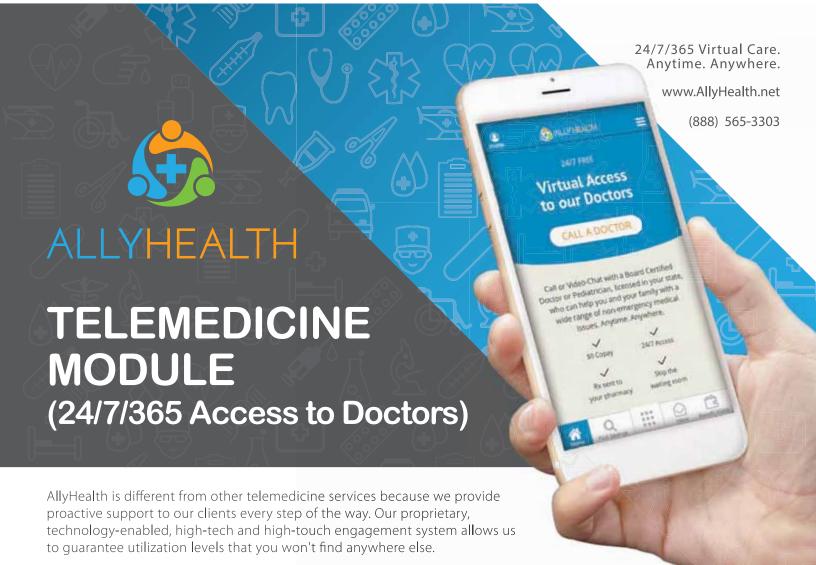

# MINIMUM VALUE PLAN (MVP)

#### **Understand the Value**

The Minimum Value Plan (MVP) is a high deductible plan offering limited coverage. The MVP plan covers the following services after your \$7,150 (individual) deductible is met; Emergency Room Services, Inpatient Hospital Services, Primary Care and Specialist visits, Imaging, Laboratory Services, X-rays and Diagnostic Imaging, and certain Generic and Preferred Brand drugs. Please pay close attention to the list of excluded benefit categories

- $\ensuremath{^*}$  Please note: If you elect the MVP a Personal Health Questionnaire is required.
- \*\* As per the Affordable Care Act Guidelines we use the W2 safe harbor calculation as outlined in IRS regulations to calculate the Employee Only Rate for the MVP Plan.

https://www.irs.gov/affordable-care-act/employers/minimum-value-and-affordability

# **HOW IT WORKS**

Talk directly with a doctor or pediatrician within minutes by phone, video, or mobile app -24/7/365. From home, the office, or on the go. On your schedule. Anytime. Anywhere.

# **COMMON CONDITIONS WE TREAT**

- Acne
- Allergies
- Asthma Headache
- Bronchitis
- Cold & Flu
- Diarrhea
- Ear Infection
- Fever
- Gout

- Infections
- Insect Bites
- ConstipationJoint Aches & • Urinary Tract Pains Infection

Sinus Infection

Sore Throat

Sunburn

And more...

Sports Injuries

Skin Inflammations

Rashes

# **FEATURES AND BENEFITS**

- 24/7/365 access to our experienced, board certified doctors
- Unlimited use, with no per-call fees or co-pays
- Prescriptions called in to your local pharmacy
- AllyHealth's proprietary, comprehensive, technology-driven, multi-channel engagement system
- Transparent reporting, and Guaranteed Results!
- Reduce costs, redirect claims, and increase productivity
- Improve employee recruitment and retention

# WHEN TO USE **ALLYHEALTH**

- Instead of going to the ER or urgent care center for a non-emergency medical issue
- During or after normal business hours, nights, weekends, and even holidays
- If your primary care doctor or pediatrician is not available
- To request prescriptions or refills (when appropriate)
- If traveling and in need of medical care

drugs	

- All benefits and accumulations are per person on a Coverage Period basis.
- Dependents covered to age 26 regardless of student or marital status.
- Pre-existing conditions are not applicable for any member of the Plan.
- Timely Filing: Claims must be filed within 6 months from the date the service incurred.
- Rural Area is defined as 100 miles. If preventive services are not available within 100 miles of your residence the provider will be paid in network.
- Coordination of Benefits: Non duplicating, Plan does not pay in excess of what the plan would have paid without other coverage.
- We believe this Plan is a Non-Grandfathered health plan under the Patient Protection and Affordable Care Act (PPACA).
- All claims are subject to Plan provisions at the time of services. Any benefits quoted telephonically or in writing are not a guarantee of payment. Claims are determined upon receipt of the claim and any additional information required to make a benefit determination.

# **OUR DIGITAL TOOLS**

**optumrx.com** is a fast, easy and secure way to get the information you need to make the most of your pharmacy benefit

#### Website features and tools

Set up your online account at optumrx.com and:

·Compare medication prices at different pharmacies

·Locate a network pharmacies

·Manage medication for covered dependents and spouses

·View real time benefits and claims history

You can save time, money and improve your health

•Save time — Skip the pharmacy line. Order medications you take regularly online and make fewer trips to the pharmacy.

# **OUR DIGITAL TOOLS**

#### While on the go

Access your pharmacy benefits and manage your prescriptions from your smartphone or tablet with the OptumRx App.

- Find drug prices and lower-cost alternatives
- View your claims history
- · Locate a pharmacy
- · Access your ID card, if your plan allows
- Manage medication reminders
- · Transfer retail prescriptions to home delivery
- · Refill or renew home delivery prescriptions
